PERSON PROFILE

With over 9 years of experience in the market, I have worked as a Full Stack and had the opportunity to work with various technologies, including Laravel, Node, Python, Javascript, React, React Native, Angular, and Vue. In the last 3 years, I have specialized in front-end, developing my skills in the React stack and becoming an expert in this area. I am ready to apply my knowledge and experience to contribute to the success of your company.

EMPLOYMENT HISTORY

Full-stack at 7 Cliques, Cascavel PR

June 2014 — December 2015

In my experience as a full-stack developer at a software house, I have used technologies such as PHP, Laravel, jQuery, Angular, and Ionic. I have used these technologies in projects from various areas, from internal systems to applications for end customers, always seeking to deliver robust and scalable solutions.

Full-stack at Focus Concursos, Cascavel PR

April 2016 — April 2018

In my experience as a full-stack developer at a software house, I have used technologies such as PHP, Laravel, jQuery, Angular, and Ionic. I have used these technologies in projects from various areas, from internal systems to applications for end customers, always seeking to deliver robust and scalable solutions.

Full-stack Developer at Flavors of America, Ciudad del Est - PY

May 2018 — December 2020

Working as a full-stack developer, I have been involved in both the development of modules within the company's ERP and the creation of applications that support the company's departments and partners. The technologies I have used include Python, Frappe, PHP, Laravel, React, and React Native.

Co Founder / Full-stack Developer at 2bSolutions, Foz do Iguaçu

December 2020 — Present

I work in the development of mobile applications and web systems for companies. I am responsible for project management, team and partner hiring, as well as being involved in development. The technologies I use include React Native, PHP, Python, Laravel, Frappe, ReactJS, NextJS, AWS, Firebase, and WebRTC.

Senior Front-end Developer at SIS Soluções Integradas, Remoto

June 2021

I worked for SIS Consultoria and handled some interesting cases, such as the Midway application (Riachuelo), where I worked for over a year developing the frontend using the React Native stack. I worked in a team with several squads and tribes. I also worked on a project for ABInbev, developing the frontend of an SSO application using the React stack.

○ **Senior Front end Developer at Midway, São Paulo**

March 2022 — Present

I have been maintaining and working on the creation of new functionalities for the core banking of the Midway app, using technologies such as React, React Native, Git, Azure, and Scrum.

○ **Senior Front End Developer at DBC, Porto Alegre**

September 2021 — March 2022

I worked on creating the accounts back-office for Getnet (DBC client), using the React + TypeScript stack. I was involved in the front-end project architecture, as well as the development of the system's features and screens.

EDUCATION

○ **Tecnologia em Sistema para Internet, Centro Universitário Fundação Assis Gurgacz, Cascavel PR**

January 2011 — December 2013
